A  
HANDBOOK OF EXAMINATIONS  
IN MUSIC

CONTAINING  
650 QUESTIONS WITH ANSWERS

BY  
ERNEST A. DICKS

FELLOW OF THE ROYAL COLLEGE OF ORGANISTS.

---

The scope of this book covers the whole ground of theoretical examinations in music. It supplies an invaluable equipment to candidates entering for the various Local Examinations in Musical Knowledge held periodically throughout the country, and it will be found extremely useful to those who are preparing for the higher grades of Diploma and Degree Examinations.

The book is therefore very comprehensive. Its range includes questions and answers in Theory, Harmony, Counterpoint, Form, Fugue, Acoustics, Musical History, Organ Construction, and Choir Training.

By no means the least valuable part of the volume is that section, consisting of upwards of one hundred pages, which contains reprints of past examination papers set by the Associated Board, Trinity College, and the Incorporated Society of Musicians; the Universities of Oxford, Cambridge, Dublin, Durham, and Edinburgh; The Royal Academy of Music, The Royal College of Music, The Royal College of Organists, and The College of Preceptors. The advantage of having so many specimens of these actual examination papers within one cover is too obvious to need further comment or commendation.
